QUESTIONS

- No questions

ISSUES

- Responsibilities chimpanzee GUI
    - Viktor, Hugo and Emil will look at it

DISCUSSION

- What game are we building next?
    - Word test
        - Multiple choice questions with the meaning of difficult words
    - Vision test
        - Shrinking point
        - Color test
    - Aim training
    - **Visual box memorization**
        - Recognizable
    - Typing test
        - Phone writing is more unusual
        - That also makes it different
    - Verbal memory
    - Problem solving, puzzle type
        - Sliding puzzle
        - Mensa type tests are difficult to construct and keep scientific

TO DO

- Structure GUI responsibilities chimpanzee test (15h)
    - Viktor, Emil and Hugo
- RAD documentation (5h)
    - Viktor
- SDD documentation (5h)
    - Aline and Felix
- Connect GUI with model according to MVC (3h)
    - Felix
- Profile and statistics GUI (10h)
    - Emil

- Server connection Social (10h)
    - Aline
- Update UML (2h)
    - Felix and Aline
- Write tests for chimpanzee test (2h)
    - Hugo
- Start memory test logic (6h)
    - Hugo

NEXT MEETING
- Supervisor Friday 12:00
- Meeting Monday 15:00

Questions for supervisor
- How do we differentiate between controller and view?

- Does timer count as threads? See ReactionTime class

- Does dependencies for tests matter?
